

Armure FS

Enterprise File Sharing

NU edition

-  Pluggable
-  End-to-End Security
-  Micro Services
-  On Demand Scaling

Armure FS facilitates setup of **Private Cloud Storage** - a form of cloud storage, where the enterprise data and cloud storage resources, both reside within the enterprise's data center and behind the firewall.

Also known as internal storage clouds, private cloud storage services are managed inside the data center.

Private cloud storage helps resolve the potential for security and performance concerns while still offering many of the benefits of cloud storage such as scalability, reliability, rapid deployment and the option of management by a specialized cloud storage provider.

What is Armure FS?

Armure FS is web based enterprise file sharing solution. Armure FS brings the file sharing and smart collaboration features to enterprise through private cloud storage.

Armure FS gives you total control over your data. You can decide the exact location to store the data files. You get total control over the level of security.

Armure FS Key Features

PLUGGABLE

All features of Armure FS are implemented as plugins loaded into service container. The architecture allows features to be loaded on demand as add-ons

SERVICES BASED

Armure FS implements RESTful services and exposes the file sharing API in extensible manner.

END-TO-END SECURITY

Armure FS implements enterprise security standards ensuring end-to-end data security. Your data never leave your premises, giving you total control of the same throughout the lifecycle.

ON-DEMAND PERFORMANCE

Stateless services based architecture provides unparalleled scalability.
